Dear Provider,

Horizon NJ Health is sending you a reminder about the correct bed type and revenue codes you should be billing for the Managed Long Term Services and Supports (MLTSS) program as well as non-MLTSS services provided in a nursing facility or day program.

Please use the grid below as a guide when billing nursing facility claims to Horizon NJ Health. The room types you cite on your daily logs will correspond to an appropriate revenue code for billing purposes. By following this guide it will help reduce the number of denials you receive on your claims submissions.
