

Prescription Drug Listing

Horizon NJ Health wants to make sure you are getting the health care you need. Very often, that health care may include prescription drugs.

Most prescription and non-prescription (over-the-counter) drugs are covered at no cost, or low cost to you, as long as your doctor orders them and they are listed on our Formulary. A committee of doctors and pharmacists reviews the list of drugs on our formulary to make sure that the drugs are safe and effective. If your doctor decides that you must have a drug that is not included in the Prescription Drug List (Formulary) or your

drug needs pre-approval, including a brand name medication exception, he or she can call and ask for special permission for you to get the drug. Your doctor can call the Horizon NJ Health Pharmacy Department at **1-800-682-9094**.

For a pharmacy near you, visit our Provider Directory at horizonNJhealth.com or call Member Services toll free at **1-800-682-9090**. People with hearing or speech difficulties can call our TTY/TDD service at **711**.

Symbol	Meaning
CAPS	Brand name drugs
@	Needs pre-approval or other limitations apply
YO	Means "years old"
*	Limitations apply (quantity, age)
◇	Subject to Step Therapy of first-line agents
Some members may have their HIV/AIDS medications covered through the AIDS Drug Distribution Program (ADDP).	
Vitamin A derivatives are considered noncovered pharmacy benefits for members 35 years of age and older.	

- **A Formulary is a list of approved medications covered by Horizon NJ Health**
- **You can have prescriptions filled at any participating pharmacy.**

Please note that Horizon NJ Health maximum days supply limit is 30 days.
